

# Come Join!

The Cedar Cottage Neighborhood House

## Community History Project

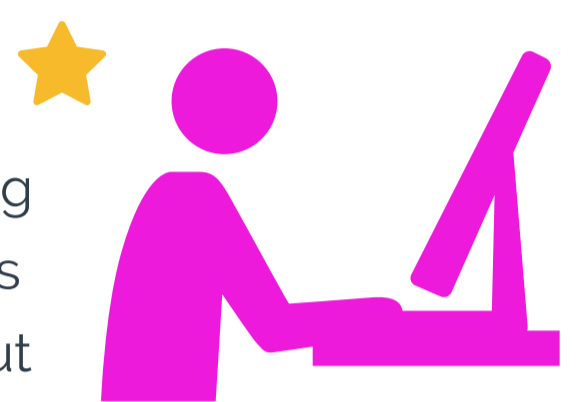

CCNH is learning and creating its history with community members! From June 1st to September 30th, help create historical resources by contributing your stories, memories and creativity to the following projects.

01

### Updating the Archives

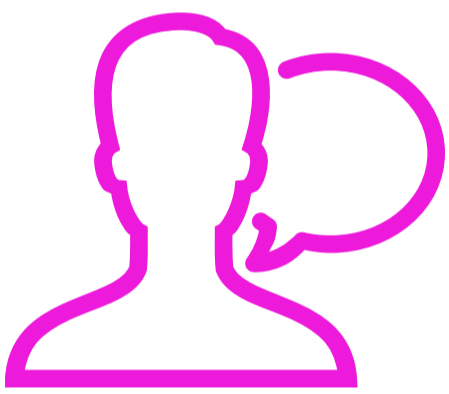

We are creating a beautiful timeline using photos and documents from the archives at CCNH! Help us identify and write about these pieces of history to create an online resource for the community!

### Life History Interviews

02

Community Members with long time involvement in CCNH will be invited to share their stories in an interview.

03

### Community and Youth Comics Workshops!

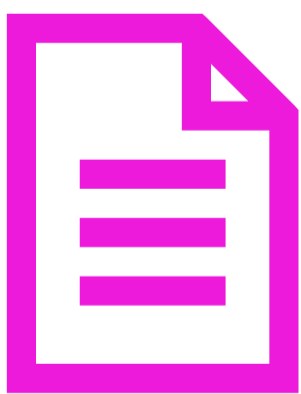

In these interactive workshops, community members create comics based on their own experiences at CCNH and on the historical material found in the archives.

### The Community Steering Committee And the Final Report

04

The Steering Committee is created from community members who will make key decisions about what goes into the final history report!

05

### History Celebration!

Come join us at the end of September to hear share stories and to learn about CCNH history from resources created by your neighbours!

This project is open to anyone interested in participating! If you or someone you know has stories and information or just wants to contribute their creativity and energy to the CCNH history project please get in touch with Maya Reisz at [mreisz@cedarcottage.org](mailto:mreisz@cedarcottage.org) or 604-505-3294
